According to the Spanish regulations, it is **mandatory that rifle and ammunition travel separately**, in hard cases with a lock.

It is also important to know that **suppressors or silencers are forbidden** in Spain.

EU-MEMBER COUNTRIES.

Remember that you are allowed to bring maximum of five guns per hunter.

Travelling in the European Union with guns is easy if you have a valid **European Firearm Pass**. It must be shown at your arrival to check serial numbers when picking up your guns in the "**Guardia Civil Intervención de armas**" Station at the airport. This document certifies that your guns are truly yours, so you will be able to move all in the European Union just showing this document.

UK CITIZENS.

Remember that you are allowed to bring maximum of three guns per hunter.

UK citizens travelling to Spain with the purpose of participating in hunting expeditions should apply for an Authorization to hunt/import guns in Spain at the "Guardia Civil". Huntinspain will apply in your name for this document, but you will need to send us and provide the following information:

- Scanned copy of passport.
- Scanned copy of UK Shotgun certificate (All pages).
- Specific gun details (brand, caliber and serial number).
- Exact flight details for both arrival & departure.
- Payment of the fee tax form (Huntinspain)

Once we receive "Gun Import Authorization", we will send you a scanned copy, as it must also be presented upon your arrival when clearing guns at "**Guardia Civil Intervención de armas**" Station at the airport.
